

Greetings! I'm a trainee programmer with strong expertise in React, HTML, CSS, JavaScript, and MySQL. My focus lies in crafting dynamic user interfaces with React, leveraging its capabilities for modern web applications. I use HTML and CSS skills to design engaging and functional pages. My experience with JavaScript becomes into creating interactive applications, I can manage MySQL databases in efficiently way for effective data handling.

As a trainee programmer, my main drive is continuous learning. I am committed to improving my skills and contributing to challenging projects. Open to and new opportunities, I'm eager to collaborate and broaden my experience in software development.

## Work History

2024-01 - present	<b>Desarrollador web</b> <i>Freelancer, San Miguel de Tucuman, San Miguel de Tucuman</i>  developing an application for a frozen fruit company looking for a new approach when using development technologies such as react-vite, nodejs and electron to achieve a closed software and internally integrate our client, thus achieving, in an innovative and modern way, expanding knowledge and meeting new challenges.
